Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16, drawn to a lighting system wherein a plurality of light source generating a light and an optical fiber and a light coupler optical coupling the light sources to the fiber, classified in class 385, subclass 43.
- II. Claims 17-21, drawn to a light distribution system for an automotive vehicle, classified in class 362, subclass 551.

Inventions Group I, Group II and Group III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions because Group I is related to a coupling system between an optical fiber to light source through a light coupler where Group II is related to a light distribution system for an automotive vehicle wherein a controller coupled the light source controlling the operation of the light source. It is very clear these inventions are completely unrelated.

Art Unit: 2874

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, have acquired a separate status in the art because of their recognized divergent subject matter, and the search required for invention I is not required for invention II. Thus, the restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Kevin G. Mierzwa on March 27, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 2874

Applicant is given 30 days from the date of this letter to provide this list and selection to avoid the question of abandonment.
